

*Draw a Rhyme!*

Name: \_\_\_\_\_

# BUTTERFLY

Let's draw a butterfly with this rhyme  
Start with a circle head toward the top this time  
Make a long oval body under that now  
Add designs to it any way you know how  
So it can see when it flies  
Draw on it some beautiful eyes  
On it's face, make a smile  
Your butterfly will look good in a while  
Next draw two antenna right on top  
You're doing so good, let's not stop  
It's time to make some wings on each side  
Make two bumps from top to bottom nice and  
wide  
Wings are symmetrical, with each side the same  
having the same thing  
So add lines, shapes, and patterns to each wing  
In the background add any details just for fun  
Maybe a flower, cloud, or big bright sun  
Last fill in your drawing with colors dark and  
light  
Take your time so your butterfly is a beautiful  
sight!
