

When you draw a dog it is said,
You should start with a head.

So he can hear when you call his name
Draw some ears on each side that are the same.

Now he needs some eyes on his face
So he can see his toys all over the place.

So he can sniff make a nose
Dogs like to smell things even your toes.

He needs a mouth, to chew his bone,
That's what he likes to do when he is alone.

Let's give him a body covered in fur,
Hope he doesn't get fleas and cause a stir!

He needs four legs to run and play.
This dog will be tired at the end of the day.

Don't forget to add a tail.
And give him some food in a pail.
